Safety

IMPORTANT SAFETY INSTRUCTIONS

1. To disconnect the machine from the electrical power supply, turn off the power switch and remove the power cord plug from the wall socket. The wall socket must be easily accessible and in close proximity to the machine.
2. Read these instructions carefully. Save these instructions for future reference.
3. Follow all warnings and instructions marked on the product.
4. Do not use this product near water.
5. Do not place this product on an unstable cart, stand, or table. The product may fall, causing serious damage to the product.
6. Slots and openings in the cabinet and the back or bottom are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug, or other similar surface. This product should never be placed near or over a radiator or heat register or in a built-in installation unless proper ventilation is provided.
7. This product should be operated from the type of power indicated on the marking label. If you are not sure of the type of power available, consult your dealer or local power company.
8. Do not allow anything to rest on the power cord. Do not locate this product where persons will walk on the cord.
9. Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.

CE

This device complies with the requirements of the VariPOS™ directive 2004/108/EC with regard to "Electromagnetic compatibility".

FCC

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation

CAUTION ON LITHIUM BATTERIES

There is a danger of explosion if the battery is replaced incorrectly. Replace only with the same or equivalent type recommended by the manufacturer. Discard used batteries according to the manufacturer's instructions.

【VGA Version】

3 Specification

	VariPOS 815
CPU	Intel® Mobile Celeron B810 1.6GHz with L3 Cache 2MB
	Intel® i3-2330E 2.2 GHz with L3 Cache 3MB
	Intel® i5-2510E 2.5 GHz with L3 Cache 3MB
Chipset	HM65
System Memory	1 x SO-DIMM DDRIII 1333, up to 4GB
Display	
TFT LCD	38.1cm (15")
Brightness	250nits
Resolution	1024 x 768
Touch Screen	True Flat Projected Capacitive Technology / True Flat 5-Wire Resistive
Storage	
HDD / SSD Type	1 x SATA 6.4cm (2.5")HDD , SSD (optional)
I/O Ports -External	
DC Input	1 x Mini Din 4P (DC 12V only)
Cash Drawer	1 x RJ-11 (Power Pin 12V)
Network (LAN)	1 x Gigabit Ethernet by RJ-45
USB Port	4 x USB 2.0
Serial Port	4 x RS-232
	COM1/2 : DB-9, RS-232, Pin9 w/RI/5V/12V Selectable by BIOS
	COM3/4 : RJ-48 , RS-232, Pin10 w/RI/5V/12V Selectable by BIOS
Audio Port	1 x Line-out ; 1 x Mic-In
PS/2 Port	1 x PS/2 connector for Keyboard
LPT Port	1 x DB-25 Printer Port (Standard)
VGA Port	1 x DB-15 VGA Port (Optional)

I/O Ports -Internal	
Card Reader & iButton	COM5 : Internal Pin header for Card Reader & iButton
Audio	HD Audio, 2W Speaker x 2
Bus Expansion	1 x Mini-PCI-E Slot
Compliance	IP 66 on front panel
System Management	Desktop Management Interface (DMI)
	Preboot Execution Environment (PXE)
	Wake on LAN (WoL)
	Advanced Configuration and Power Interface (ACPI)
OS Support	Windows 7, Windows POSReady 2009, WEPOS, Windows XP Pro for Embedded, Fedora(Linux)
Power Supply	External adapter, DC Model:120 Watts, Voltage:+12VDC 10 Amax
Material	Main Unit: Die-casting aluminum ; I/O Cover: Plastic
Color	Main Unit: Grey / White / Black *Customized color for plastic parts
Certifications	CE, FCC, Class-B, RoHS, WEEE
Dimension(W x H x D)	370 x 300 x 236 mm
Weight	5.96 Kg (Aluminum Base: 1 Kg)
VESA Mounting	100 x 100mm
Operating Temperature	0°C ~ 40°C, 10% ~ 90% RH, non-condensing
Storage Temperature	-20°C ~ 60°C, 10% ~ 90% RH, non-condensing

*The right has been reserved to change the specification without prior notice.

4 System Assembly & Disassembly

4-1 Open the System

To access the inside system, you need to open the system first and the procedure of opening the system is as below:

1. Open the back IO cover
2. Release the screws of VFD
3. Release the screws of hinge cover
4. Remove the plastic hinge cover parts
5. Release the screws of base
6. Open the plastic cover from two sides
7. Release the screws of aluminium back frame

4-2 Replace the HDD

1. Open the IO back cover
2. Release the 1x screw from HDD tray
3. Remove the HDD tray.
4. Release the 4 x round screws on the HDD tray and replace HDD
5. Screw 4 x round screws on the HDD tray and insert the HDD tray into the whole system HDD slot
6. Fix HDD tray on the system with the 1x screw

Screw Pack

Item	Part No.	Description	Q'ty
A	3SMFH30040N0	F-HEAD SCREW:M3*0.5-4mm,NI	5
B	3SMPH30062N0	P-HEAD SCREW:M3*0.5-6mm,NI(FLOWER)	2
C	3SLFR03651B0	Screwdriver(FLOWER)	1
D	3SMUH30061N0	ROUND WASHER HEAD SCREWS:m3*0.5-6MM,NI	3

Security Screws*

- * There are security screws and a screw driver enclosed in product carton.
- * Customers can use the special security screws to ensure HDD security.

4-3 Install a Customer Display

1. Put the panel on the flat table & open the IO back cover of system.
2. Assemble the customer display hinge into the customer display slot and fasten 2 x screws.
3. Connect the customer display into COM3 via the cable management slot and adjust COM3 voltage to +12V in BIOS (refer to Chapter 6)
4. Fasten the IO cover into the right position and turn the system on the right position.

①

②

③

Cable Managment Slot

④

⑤

4-4 Install a Second Display

1. Slide the 2nd display hinge into the hinge holder on VariPOS.

2. Tighten the 4 screws that attached in the accessory box.

3. Plug the VGA cable to VGA port on the terminal.

4. Don't forget to insert the I/O cover.

5. Done

Installation for external monitor

1. Put the VGA cable of the external monitor through the base.

2. Connect the extension VGA cable enclosed with the accessory box to the VGA cable of the external monitor.

3. Plug the extension VGA cable to VGA port and install the I/O cover back to finish the installation.

4-5 Install a Cash Drawer

You can install a cash drawer through the cash drawer port. Please verify the pin assignment before installation.

Cash Drawer Pin Assignment

Pin	Signal
1	GND
2	DOUT bit0
3	DIN bit0
4	12V
5	DOUT bit1
6	GND

Cash Drawer Controller Register

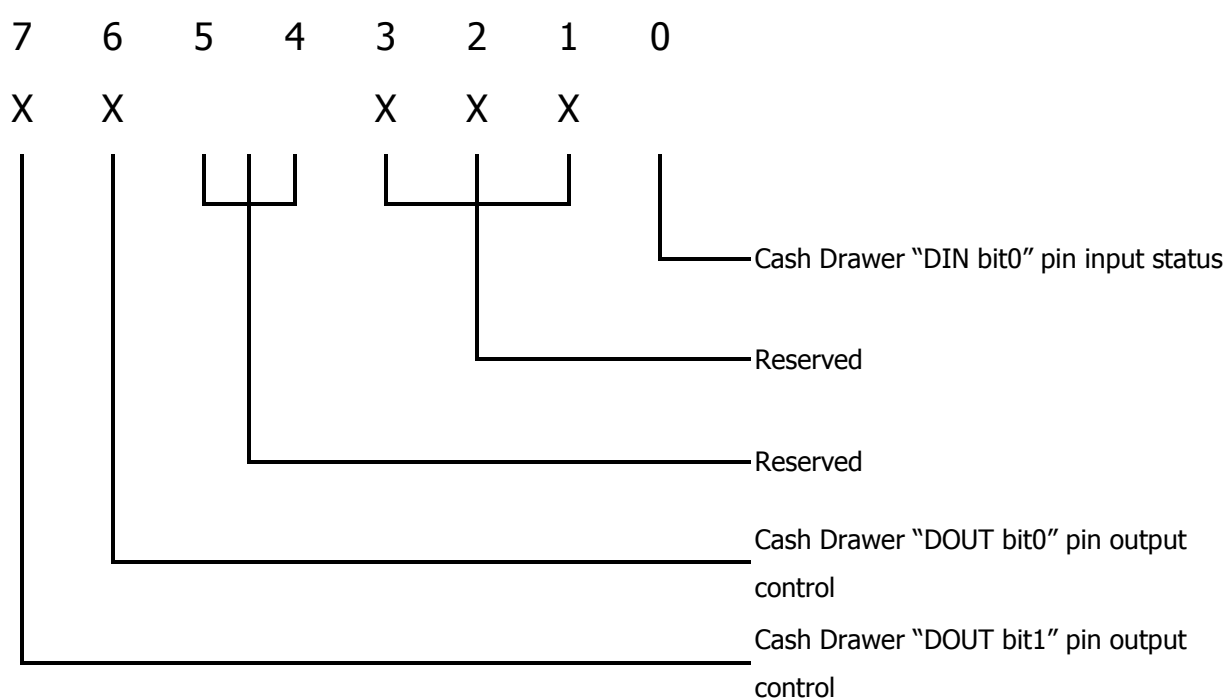

The Cash Drawer Controller use one I/O addresses to control the Cash Drawer.

Register Location: A24h

Attribute: Read / Write

Size: 8bit

BIT	BIT7	BIT6	BIT5	BIT4	BIT3	BIT2	BIT1	BIT0
Attribute	Write	Write	Reserved		Reserved			Read

Bit 0: Cash Drawer "DIN bit0" pin input status.

= 1: the Cash Drawer closed or no Cash Drawer

= 0: the Cash Drawer opened

Bit 1: Reserved

Bit 2: Reserved

Bit 3: Reserved

Bit 4: Reserved

Bit 5: Reserved

Bit 6: Cash Drawer "DOUT bit0" pin output control.

= 1: Opening the Cash Drawer

= 0: Allow close the Cash Drawer

Bit 7: Cash Drawer "DOUT bit1" pin output control.

= 1: Opening the Cash Drawer

= 0: Allow close the Cash Drawer

Note: Please follow the Cash Drawer control signal design to control the Cash Drawer.

Cash Drawer Control Command Example

Use Debug.EXE program under DOS

Command	Cash Drawer
O A24 40	Opening
O A24 00	Allow to close
➤ Set the I/O address A24h bit6 =1 for opening Cash Drawer by "DOUT bit0" pin control.	
➤ Set the I/O address A24h bit6 = 0 for allow close Cash Drawer.	

Command	Cash Drawer
I A24	Check status
➤ The I/O address A24h bit0 =0 mean the Cash Drawer is opened or not exist.	
➤ The I/O address A24h bit0 =1 mean the Cash Drawer is closed.	

4-6 Install the MSR & iButton Reader

1. Open the right side cover of system. * MSR connection is supported on the right side
2. Connect MSR to System connector, system connector supports PS/2 and RS-232 interface.
3. Fasten the MSR screw on system

System connector supports PS/2 and RS-232 interface

MSR: RS-232 Interface

4-7 Install the Metal Stand

Power & VFD Cable Management

4-8 Install the Wall Mount Kits

5 Jumper Settings

5-1 Motherboard Layout (Sandy Bridge)

Connector & Jumper Setting

DC1	Mini Din 4P for Power Input Port
DC2	Internal Power Input Connector
CD1	RJ11 for Cash Drawer Port
USB1, 2	USB dual stack for USB Port
USB3, 4, 5, 6, 7, 8	USB Connector
COM1, 2	D-SUB 9 Pin for COM1, 2 Port
COM3, 4	RJ48 for COM3, 4 Port
LAN1	RJ45 for LAN Port
SATA1, 2, 3, 4, 5, 6	SATA 7 Pin for SATA1, 2, 3, 4, 5, 6 Connector
SPWR1, 2, 3	Power Output for SATA HDD
LVDS1	LCD Connector
VGA1	VGA Connector
CR1	Card Reader Connector
AUD1	AUDIO Jack for Line-Out

SJ1 : Clear CMOS Setup

JCLR1	Description
1-2	Clear CMOS
2-3	Normal operation

SJ2 : SATA Power Enable for SATA4(6)

SJ3	Description
1-2	5V SATA Power Enable
2-3	Normal operation

SJ2 setting SATA4(6) pin7 is GND or 5V.

6 Serial Port Pin 9 Mode Settings

BIOS Main Menu

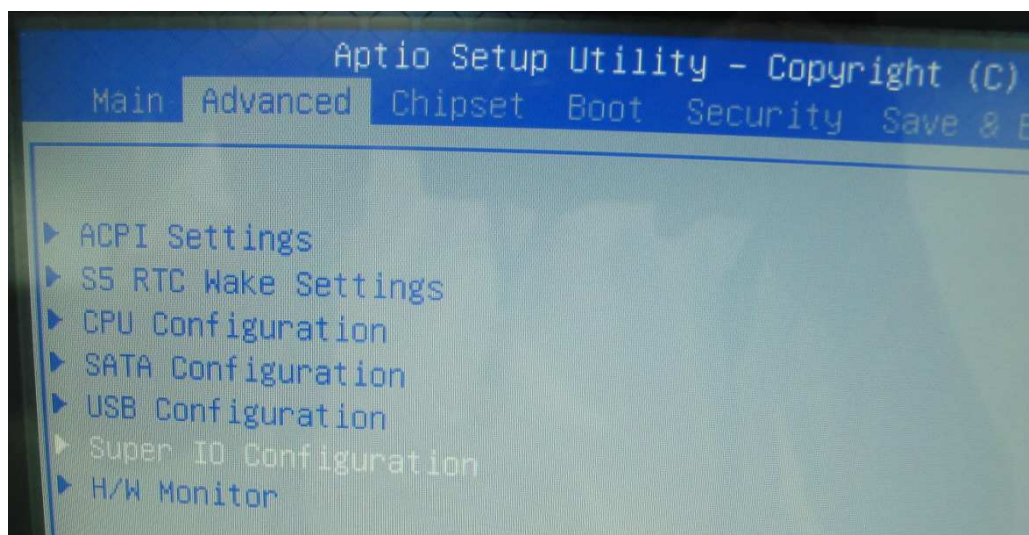

When the BIOS Main Menu is displayed, the following items can be selected. Use the arrow keys to select items and the enter key to accept and enter the sub-menu.

Enter System Overview

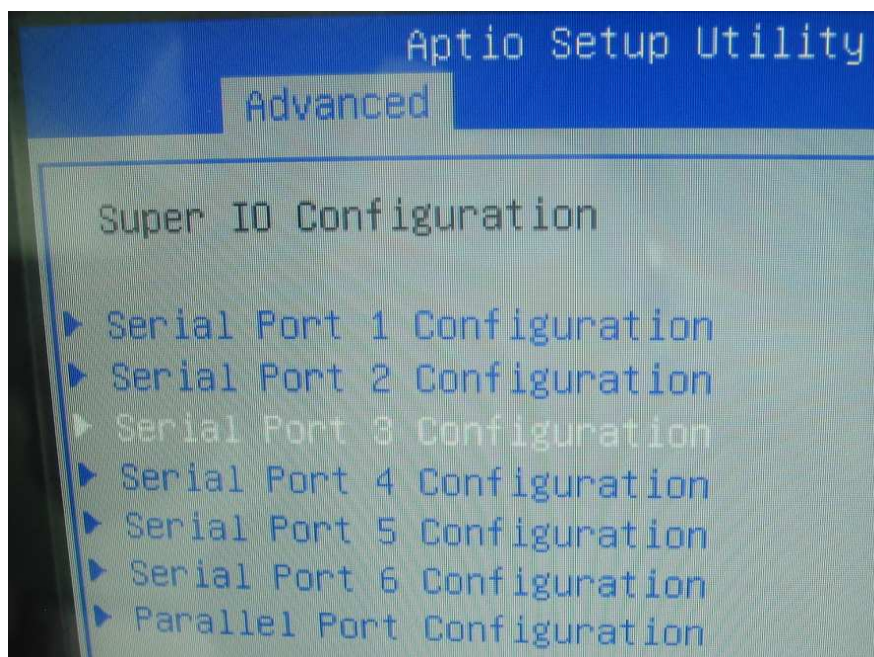

Advanced Settings

Use this menu for set up super IO configuration.

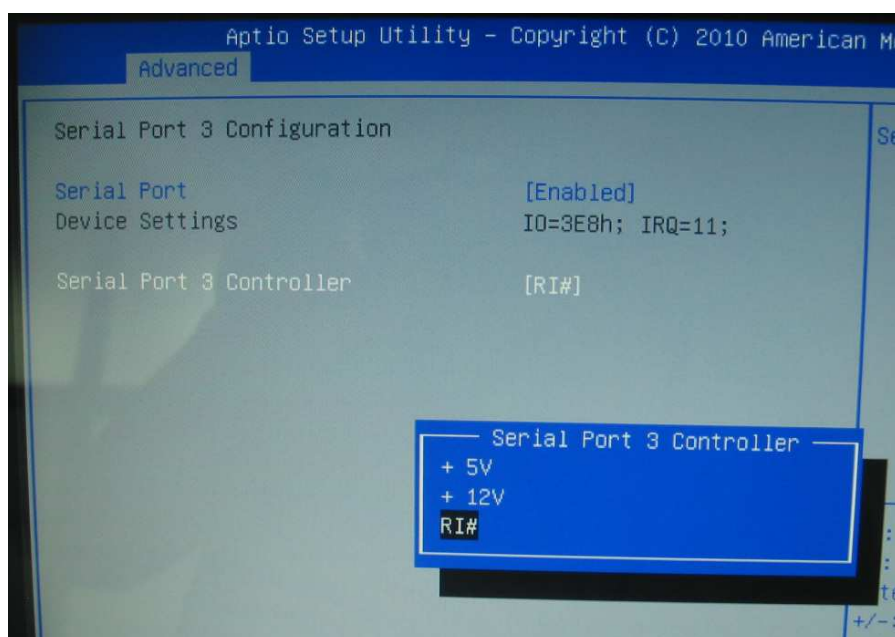

Select Super IO Configuration

Serial Port 1-4 Pin9 Mode

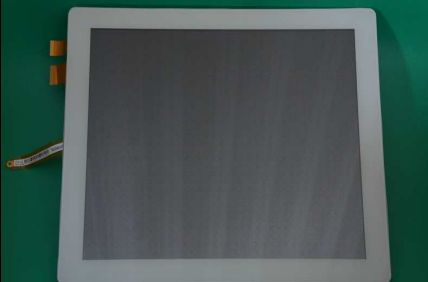

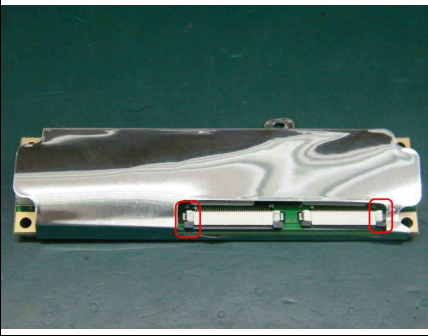

Enter into serial port 1- 4 Pin9 Mode and set up the options.

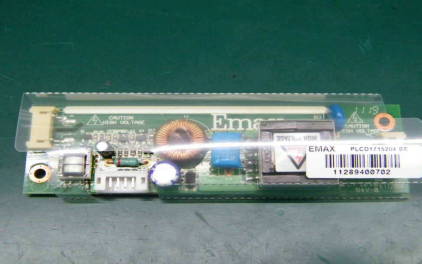

Select the serial port 1 Pin9 mode.

Save and Exit

8 Appendix

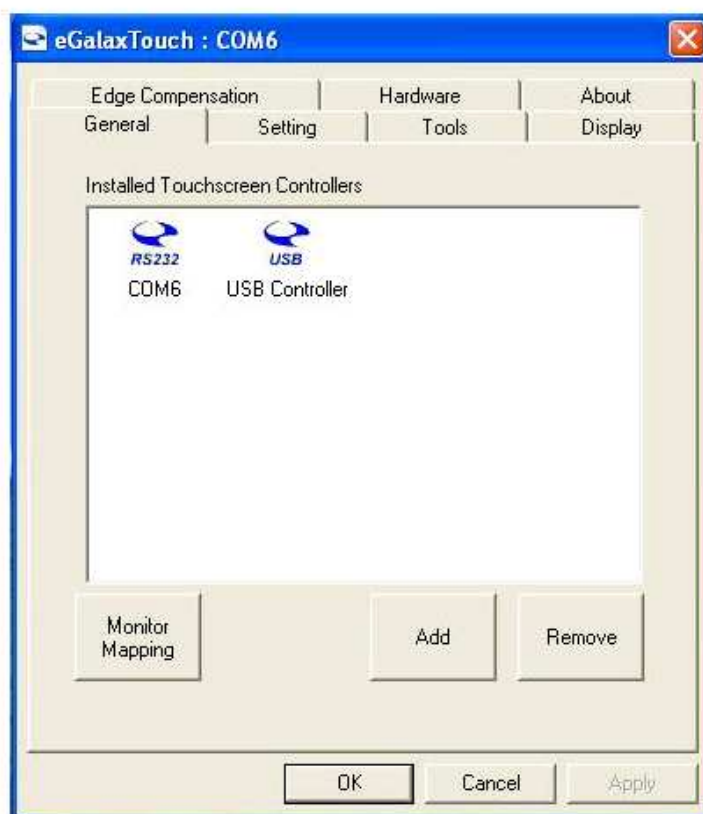

Drivers Installation:

The shipping package includes a Driver CD. You can find every individual driver and utility that enables you to install the drivers in the Driver CD.

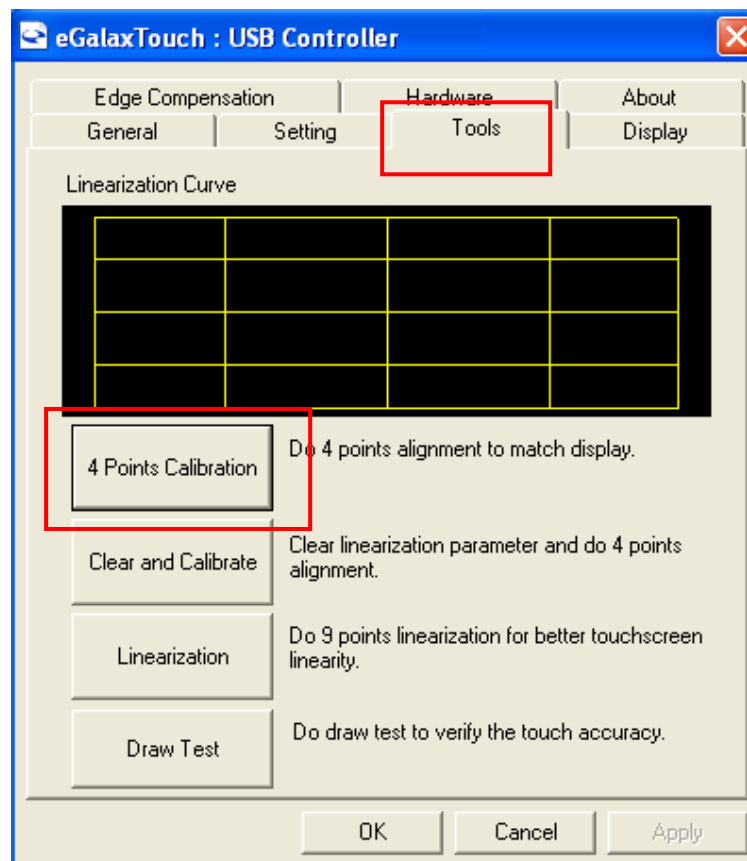

Please insert the Driver CD into the drive and double click on the "autorun.exe" to pick up the models.

Notice:

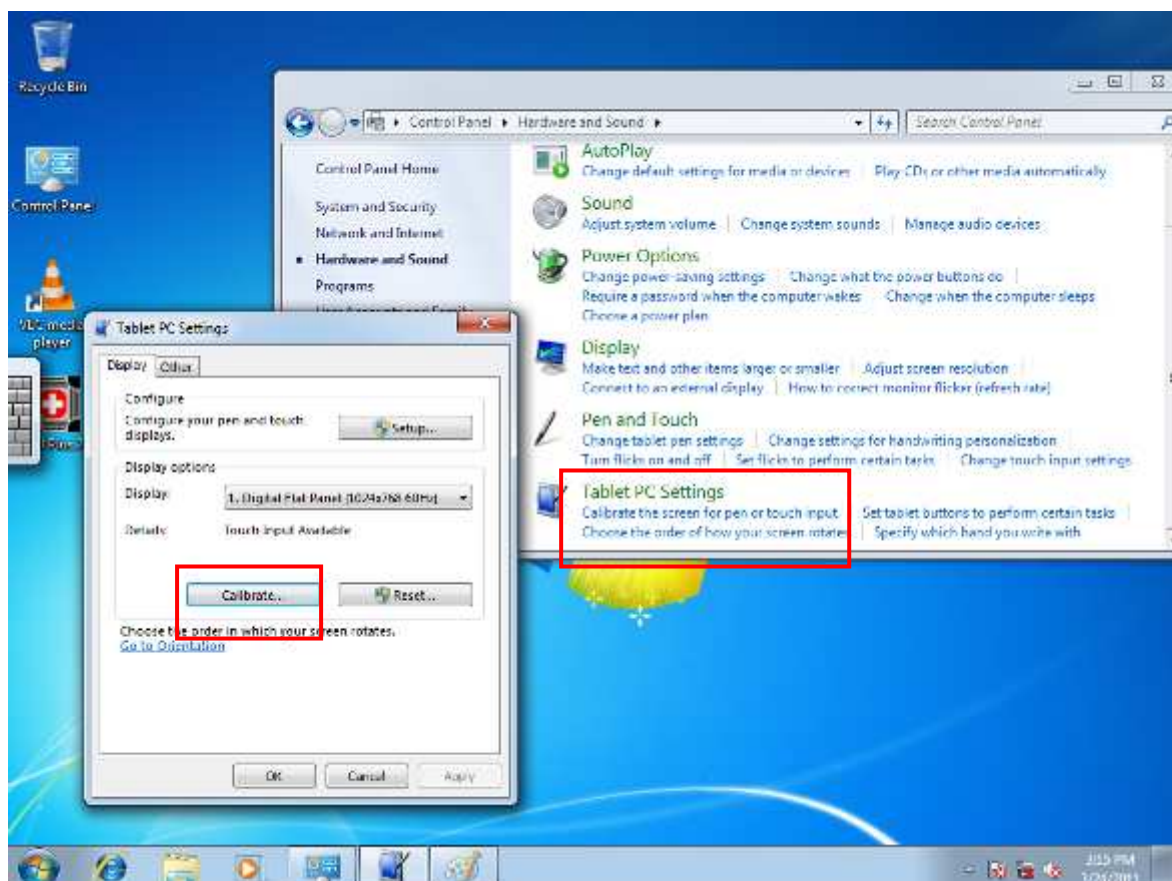

2. If you use the **Resistive** touch panel, it is only showed COM6 installation finish image.
3. If you use the **PCT** touch panel, it will show the below image, please remove COM6 icon.
4. At the Windows 7 Operation System environment, when customer want to use PCT touch multi-touch it is not required to install the touch driver.
5. **Resistive touch is RS232 interface (COM6) and the PCT touch is USB interface.**

6. Calibration with EETI touch utility: please into "tool" page and press "4 Points Calibration".

7. Calibration in WIN7: Control panel→ Hardware and Sound→Tablet PC setting→Calibrate the screen from pen or touch input
